From The Director:

I don't think it will come as a surprise to any of you that our Chapter is struggling. Attendance at gatherings is very poor, and no one seems to be interested in riding events. I ran across an interesting article on Facebook this week that is very timely, and so I thought I would share it with you.

HOW TO KILL A CHAPTER:

1. Do not Participate - Then complain that you have no voice or ideas for the chapter
2. Decline all offers to be on the chapter Team - Then talk about how things should have been completed

3. Do not attend chapter gatherings - Then play "Devils Advocate" that this or that should have been done
4. Do not Volunteer - Then complain and gripe to other members that the chapter is no good
5. If by chance the chapter does grow, in spite of everything - You go and brag about how hard it was for you to find members by yourself

When a chapter is dissolved who is to blame???? Home Office for their lack actions, District Team for not supporting your chapter more, the chapter team for not putting forth the effort, or MAYBE just MAYBE all you need to do is look in the mirror. What have you done to support your chapter and to enjoy the things you want in a chapter??

Look around at all the different organizations from all the animal groups to fraternal organizations and etc. Everyone is having a difficult time in maintaining and acquiring members. We have a unique group by our love for the motorcycle.

We ask that if something or someone has been the cause of your inactivity to PLEASE, PLEASE talk to the chapter. If no one knows why, then how can there ever be a solution or a chance to improve.

Hope you are enjoying the cooler riding weather!
