

Have you checked the thermometer lately?? What about it being light for more of the day?? We can see the tops of our yard lights around the patio again. IT'S ALMOST THAT TIME!!! The time when we can seriously think about getting the bikes out! It feels great to see the light at the end of a long winter! We know that Chapters are planning on getting together and making plans for rides and events. It will be very cool to see all our friends as often and as safely as conditions allow.

Keeping an eye on the weather and temperatures as well as hoping for 3 or 4 good rains to wash away the salt and debris is just some of the things, we are doing in preparation for 2021's riding season. Get out those calendars, visit Chapter's and District's websites. See what activities out there you would like to attend. Invite your friends and other Members to attend if possible. Spread the word and do not forget to write up an article for the Wing Riding Wisconsin game. Who knows, you may help your chapter win this year!

Honing and refreshing our riding skills is something else we look forward to. Stay tuned for planned Advanced Riders Course (ARC) and Trike Riders Course (TRC) dates. There is a good chance we will include Medic First Aid (MFA) classes as well.

The planning for the District Rally is underway. This year's theme is "Wisconsin Wild West Wings"! The Rally will be June 18th and 19th at the Hotel Mead in Wisconsin Rapids. So, dig out those cowboy hats and bandannas and mosey on over to join us! We hope there will be something for everyone to enjoy and have some fun as we carefully and safely get back together. The [Rally flyer](#) is currently on the website.

The Wisconsin District has been asked to man the On Site Registration table at **Wing Ding 42** (June 29<sup>th</sup> – July 3<sup>rd</sup>) and we would like to have your help if possible. We would be working from 8 am to 5 pm on June 30<sup>th</sup>. If you can help for a few hours, please let us know as soon as possible.
